CMCArts is dedicated to our role as
steward, educator, and custodian of
the rich cultural and artistic heritage
of the Caribbean

We are preserving our past
and
promoting our voice

Past to Present

CMCArts was founded in 1994 to address violence afflicting the youth of St. Croix and taught alternative forms of positive expression through art.

Today we

- Preserve & promote cultural heritage & contemporary experiences of the Caribbean diaspora
- Provide learning resources & creative incubator

Art IS Education

Education is at the center of everything we do

From our beautiful exhibitions that open dialogues & promote the voice of the people, to the multitude of workshops and classes for every age.

Creating Leaders

We know that artistic & creative expression promotes patience, critical-thinking, perseverance, courage, problem-solving & self confidence.

These skills are essential in science, mathematics, technology development & most other job markets—

Expanding our Reach

We made steady, thoughtful progress in growing our programs.

In the last year we

- **Increased** educational outreach by **300%**
- **Increased** audiences from 10,000 to nearly **20,000**
- **Increased** membership & implemented sustaining members & business partnerships
- Formed new Acquisitions Committee dedicated to building an art & heritage collection for future generations
-

Our Goals

Art is our cultural mirror. We are growing for the betterment of our community.

This year we will

- Reach more youth
- Expand educational opportunities
- Broaden our artist in residence program
- Continue to offer more diverse programming in music and writing

Each year we need to raise **\$500,000** from contributions to support our essential programming.
